Sponsorship and Exhibitor Prospectus

The International Neurotoxin Association (INA)

The INA is a non-for-profit, international scientific society dedicated to advancing scientific research, supporting education, and fostering understanding about botulinum and other neurotoxins. The INA provides a forum for the exchange of information and ideas among scientists, clinicians, allied health and other medical professionals, as well as the general public about the science and therapeutic use of neurotoxins.

The TOXINS conferences are the premier venue for consideration of the latest developments in the basic science and clinical applications of neurotoxins. The scientific program—presented by the world's experts in their respective fields—attracts a global audience of basic scientists and clinicians in the fields of neurology, physical medicine and rehabilitation, dermatology and aesthetic medicine, ophthalmology, otolaryngology, urology, gastroenterology, pain management, physical therapy, and other clinicians interested in botulinum neurotoxins.

INA Conference Attendance History and Overview

The INA's biennial TOXINS conferences are the only professional gathering in the world focusing on botulinum toxins "BoNTs" and attended by both scientists and clinicians across multiple specialties.
